

Bosch horns in vintage style

Features

- manufacturing of the famous Bosch horns used in BMW 501,502; Mercedes-Benz W108,109,110,111, 133, Ponton (W120, W128, W180); VW Käfer, VW Beetle
- vintage design with slot-head screws and chromium-plated horn grill
- pervasive acoustic signal 118 db(A) with long range: 325 and 400 Hz

Customer Benefits

- originally fitted in many classic cars of the 1950s and 1960s
- horns can be used for pre-war cars (with 12 volt systems) as their design differs only slightly from the original horns
